The military Aeronautical Information Service (MIL AIS) is provided in accordance with military regulations (STANAG) and ICAO Annex 15.

2. Area of responsibility

Denmark: (København FIR and Bornholm).

3. Publications

Military Aeronautical Information Publication Denmark (MIL AIP DENMARK) contains permanent essential information for flights in Denmark.

Amendments to MIL AIP DENMARK are made by replacement pages published according to page GEN 0.1-3 item 3.

Supplements to MIL AIP DENMARK (MIL AIP SUP) contain temporary changes of long duration (three months or longer) and information of short duration which consists of extensive text and/or graphics, supplementing the permanent information contained in the MIL AIP.

Low Flying Chart 1:500.000 can be used as an index of Airfields, Navigational Facilities, Air Traffic Services, Air Navigation Obstructions and Restricted Airspace.

CENOR FLIP. The CENOR FLIP is a co-operative project between Norway, The Netherlands, Belgium, Germany, Czech Republic and Denmark, containing instrument approach and departure procedures primarily for the participating countries.

RDAF FLIP – the national (blue) FLIP which contains instrument approach and departure procedures for 16 civil and military aerodromes in Denmark and 1 aerodrome in Greenland.

MILNOTAM's are issued in the M-series, distributed via AFTN. Serial number of MILNOTAM's are consecutive and includes the year of issue.

Daily NAV Warning Summary is a listing of all navigational warnings in København FIR and adjacent waters. It is issued by AFTN the day prior to day in force.

The MIL AIP, MIL AIP amendments, MIL AIP SUP, NOTAMS and the Daily NAV warning summary can all be found on the internet. The URL is: <http://www.flv.dk/milais>

4. Pre-flight information service

Pre-Flight Information may be obtained direct from TACDEN Flight Information.

Pre-Flight Information required outside operating hours must be pre-booked (see paragraph 3).
